react-dropzone

npm v14.2.3 tests https://github.com/badges/shields/issues/8671 coverage 100% backers 10 sponsors 5 Gitpod Ready-to-Code
Contributor Covenant 2.1

Simple React hook to create a HTML5-compliant drag'n'drop zone for files.

Documentation and examples at <https://react-dropzone.js.org>. Source code at <https://github.com/react-dropzone/react-dropzone/>.

Installation

Install it from npm and include it in your React build process (using Webpack, Browserify, etc).

```
npm install --save react-dropzone
```

or:

```
yarn add react-dropzone
```

Usage

You can either use the hook:

<https://react-dropzone.js.org/>

A user-friendly React library for creating drag-and-drop file upload interfaces. React Dropzone simplifies file uploads in React with a drag-and-drop UI.

4

React Hook Form

React Hook Form

Performant, flexible and extensible forms with easy-to-use validation.

Demo

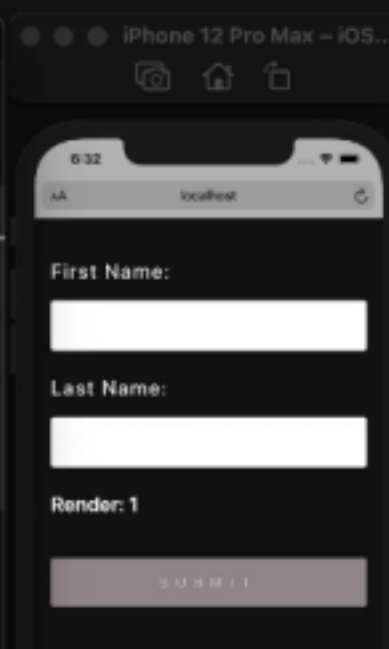

Get Started ▶

```
App.jsx — my-react-app
App.jsx
src > App.jsx > App
import { useForm } from "react-hook-form";

let counter = 0;

function App() {
  const onSubmit = (d) => {
    alert(JSON.stringify(d));
  };

  return (
    <form onSubmit={onSubmit}>
      <label>
        First Name:
        <input name="firstName" />
      </label>
      <label>
        Last Name:
        <input name="lastName" />
      </label>
    </form>
  );
}
```

<https://react-hook-form.com/>

React Hook Form simplifies form handling in React through hooks, offering efficient validation and submission management.
